- ▶ Tactical Momentary-on Forward Switch

Olight M20-X Warrior Special Operations Tactical Operations Flashlight w/ Cree XM-L LED

The Olight M20-X takes the popular and best-selling Olight M20 and upgrades it with a Cree XM-L LED. Like the original M20, the Olight M20-X features dual switches; a tail cap on/off switch, and a mode-switching side switch, with three brightness levels plus a tactical strobe. The M20-X has an improved circuit design and a 50% upgrade in brightness from the R5 version. It has a removable crenelated bezel, pocket clip, and cigar ring, to adapt to any user's demands. It can be mounted to your weapon (weapon-mount required; not included) or attached to your utility belt, providing the perfect balance of convenient size, outstandingly bright light, simple user interface, versatility, and ruggedness.

- **500 Lumens Max Output.**
- **Uses the world-class super bright Cree XM-L LED.**
