

## Olight ORB-163P06 16340 (RCR123A) Cell

### *Rechargeable CR123A Battery*

So you just bought your Olight M18 Maverick flashlight, but you also need some batteries to toss in there. Look no further, Olight still has you covered with their **16340 3.7V 650 mAh Lithium Ion Battery**, which essentially is a rechargeable CR123A battery. These Lithium-based 16340 batteries provide high performance and can be recharged up to **500 times**, saving you money in the long run. Each battery comes equipped with a built-in circuit protecting board and triple over-heat protection, so you don't have to worry your brand new M18 Maverick or other LED flashlight cutting short on you. Olight has thrown in a higher capacity and lowered the weight opposed to other 16340 batteries. You don't have to worry about over-discharging the battery as you are protected there as well.

### **Features**

- Triple over-heat protection
- Over-discharge protection
- High capacity at low temperature (-10°C)
- Higher capacity and lower weight than other rechargeable batteries
- Higher energy density
- Free from leakage of Liquid Electrolytes

## Olight ORB-163P06 16340 (RCR123A) Cell

### Specifications:

- **Battery Size:** 16340/ RCR123A
- **Model Number:** ORB-163P06
- **Battery Chemistry:** Lithium Ion (Li-Ion)
- **Voltage:** 3.7V
- **Capacity:** 650 mAh
- **Charge Current:** 325mA (0.5C)
- **Maximum Charge Current:** 650mA (1C)
- **Maximum Discharge Current:** 1500mA (2C)
- **Estimated Charge Cycles:** 500 cycles
- **Dimensions:**
  - Diameter: 0.66" (16.8mm)
  - Length: 1.32" (33.7mm)
- **Weight:** 0.56 oz (16g)
