

Olight SR91 Intimidator

Sr91

The SR91 delivers lumen output in the HID range with the advantages of an LED. The SST-90 LED puts out a smooth beam with lots of throw. An LED engine gives instant output without a warm-up time. It also allows for an intense, disorienting strobe that will stop anyone in their tracks. This light is great for search and rescue, emergency use, or lighting up a field to find the dogs (or see what critter has them barking non-stop). Smaller than the SR90 (its big brother), the compact design make it easy to carry.

Features

- Rechargeable battery pack with built-in 6x18650 batteries (7.2v, 6.6A). Rechargeable socket on the tail
- Super bright, modern and novelty design.
- Super Strong anti-Reflect coating lens,99% effective transmission
- Four indicators on the tail for indicating the batteries condition:
 1. 1 indicator on: 20% -40% power remains
 2. 2 indicators on: 40% -60% power remains
 3. 3 indicators on: 60% -80% power remains
 4. 4 indicators on: 85%+ power remains
 5. No indicators on means batteries with less than 20% power remains and need charging
- Excellent tridimensional heat dissipation ability
- Easy touching switch on the head for turning on/off the light and transferring modes
- Special designed charger, Removable and adjustable strap.
- Two charging methods:
 1. (1). With the whole torch

Olight SR91 Intimidator

2. (2). Only the battery tube
- Mil-spec: MIL-STD-810F
 - Highly water resistant to IPX-8
 - Anti-shattering ultra clear lens, anti-scratching, anti-slip function.
 - Tough and rugged body offering firm grip
 - Advanced digital power management system

Specifications

- Utilizes Luminus SST-90 LED, 30W, lifetime 60,000 hours.
- Output & Runtime: Two brightness levels and strobe mode
 1. (1). High Mode: 1500 Lumens / 1.5 Hours
 2. (2). Low Mode: 450 Lumens / 10.5 Hours
 3. (3). Strobe: 10 Hz / 3.1 Hours
- Max throw: 800 meters.
- Battery pack: 6 x18650 (7.2v, 6.6A)
- Dimensions: Length: 288mm 13.23" Bezel Diameter: 80mm 3.94";
- Weight: 1196g (With battery pack)
- Accessories: Includes one strap, one charger, one operators manual, one O-ring, car charger(optional)
- Color: Black

Operation

- Press the side button switch to active the lights
- Press and hold the switch to transfer the output from high to low. A fast double press will active the 10Hz strobe
