### TO FÖRKLARA PROGRAMM/FUNKTIONER

PROGRAM 1 (FABRIKINSTÄLLNING): Tryk på knappen Turbo... (Swedish text describing factory settings)

### NOTE

If using moonlight mode, the battery indicator will only display when the battery level is below 5%.

### PROXIMITY PROTECTION FUNCTION

When the front lens proximity sensor detects an object, it will prevent the flashlight from being recharged. While in this state, the side switch can only turn the light off. The light will turn off directly if the backlock continues for more than 60 seconds.

### WARNING

DO NOT activate turbo mode repeatedly under high temperature. This may damage the battery.

### EXCLUSION CLAUSE

Olight is not liable for damages or injuries caused by the flashlight. Please read the manual carefully.

### DANGER

DO NOT touch the light directly into human eyes. This may cause temporary blindness.

### NOTE

When the flashlight is turned off, moonlight, low, medium, or high mode will be memorized and become the default mode when the light is turned on again.

### ATTENTION

Please keep the sensor surface of the lens clean. Do not touch the sensor with your fingers.

### WARNING

DO NOT activate turbo mode repeatedly under high temperature. This may damage the battery.

### EXCLUSION CLAUSE

Olight is not liable for damages or injuries caused by the flashlight. Please read the manual carefully.

### DANGER

DO NOT touch the light directly into human eyes. This may cause temporary blindness.
