

Olight i7R EOS Ti

The i7R EOS is the world's brightest AAA rechargeable key chain LED flashlight. The compact flashlight features a CREE XP-G2 LED and comes with a 10440 rechargeable lithium battery and a charging dock (Micro-Dok). There are two different brightness levels with a high output of 120 lumens. The tailcap clip is magnetically connected to the flashlight, allowing for easy and quick detachment when you want to use it. The i7R is a convenient and powerful everyday carry light.

Main Features:

- Small but bright: AAA battery volume, 120lm output
- Includes patent-pending Micro-USB charging dock and a 10440 320 mAh rechargeable battery
- When taking down the flashlight, it will light up immediately. When the flashlight and key chain are separated, the flashlight will light up
- Support various types of batteries: The flashlight supports alkaline battery or Ni-MH battery with the same size of AAA battery
- Automatically return to your last brightness level with the built-in memory function
- Built-in temperature inductive sensor: With the temperature rise up, the brightness will ramp down, preventing overheating
- Flat tailcap with strong magnet, giving you the ability to use the light as a hands-free worklight
- Use light titanium alloy with high specific strength, first choice for the airplane engine parts material
- Magnetic key chain: Take or place the flashlight very conveniently
